

KSSSB

Online Computer Science

DETAILS:

Kansas State School for the Blind is launching a pilot Introduction to Java Computer Science Course tailored for students who are B/VI in partnership with Microsoft Philanthropies TEALS (Technology Education and Literacy in Schools). The TEALS Program has a ten-year, proven track record of bringing CS Programs to High Schools by partnering technology industry professionals with classroom educators to team-teach CS. KSSSB and TEALS created this course with KSSSB students in mind, working closely with a community of adults who are B/VI. The pilot class will cover variables, outputs, methods loops, if/else statements and special topics. The class will be offered remotely. We are excited to bring this class to students who are B/VI in Kansas.

WHAT: COMPUTER SCIENCE
WHEN: STARTING JAN 6, 2020
TIME: 3:45p-4:30p, M-Th
WHERE: ONLINE
