

KSSB Family Activity Box B - Music & Movement

You have opened the box - now what?

First, Explore the Microphone Function Buttons from left to right. Based on your child's interest and abilities, identify the various buttons and slots on the microphone.

- Row 1: Previous, Play/Pause, Music Volume up
- Row 2: Next, Record, Music Volume down
- Toggle Buttons: Mic Volume up and down; Echo Volume up and down
- On/off button: on the top flat surface above the first row
- Headphone jack: middle of flat bottom surface under the bottom row
- Charging Cable Slot: flat bottom surface under the bottom row

We hope you will enjoy the supplies in the box to entertain your child through music and art. Using the microphone, family members can go to KIDZBop [Classroom](#) or [YouTube](#) Channels to sing and dance along to the music. For added fun, try the dance steps or hand movements.

*** Please monitor your child when navigating the internet and searching for music to ensure that any music they are listening to is within the guidelines you have for your child.

Look for upcoming events:

The KSSB Family Activity Box Committee will send out an announcement for a planned KidzBop online Zoom Event. Teachers from KSSB will join the zoom session for a fun-filled Back to School KIDZBop Celebration later this summer.
