

# KSSSB

## Online Computer Science

### DETAILS:

Kansas State School for the Blind is offering a pilot Introduction to Python Computer Science Course tailored for students who are B/VI in partnership with Microsoft Philanthropies TEALS (Technology Education and Literacy in Schools). The TEALS Program has a ten-year, proven track record of bringing CS Programs to High Schools by partnering technology industry professionals with classroom educators to team-teach CS. KSSSB and TEALS created this course with students who are blind/low vision in mind, working closely with a community of adults who are B/VI. The pilot class will cover variables, outputs, methods loops, if/else statements and special topics. The class will be offered remotely. We are excited to bring this class to students who are B/VI in Kansas.

<b>WHAT:</b>	COMPUTER SCIENCE
<b>WHEN:</b>	STARTING Aug 16, 2021
<b>TIME:</b>	3:45p-4:30p, M-Th
